Find more Study better

Our Team

We are six students who attend the third year of Computer Science

These years have trained us on many useful aspects that allow us to develop this project in an optimal way

**Ux and UI -** Tiziano Colagrossi and Lucian Medrihan (mockup)

Backend - Michele Dilollo and Riccardo Pagliuca (architectural studies)

Frontend - Davide Brian Dicampi and Marco Collalti (data form analysis)
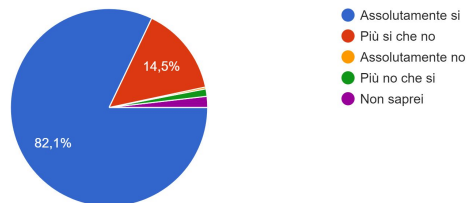

Data analysis

## Trovi difficile recuperare appunti ed esercizi per gli esami che stai preparando?
330 risposte

Needs

We are all students and for this reason we have noticed that is very difficult for someone to find notes to prepare exams or in somehow well written notes. Some service offer notes, but sometimes are not organized in the best way

Target

Our target - university students between 19 and 25 years old

We deployed a form with a series of questions to collect different points of view from our future users. After analyzing the answers, we changed our first ideas and adapted basing on the opinion of interviewed people

Possible solution

...ok really

We can offer a completely free service with good system of search, also only a part of a document and an optimized organization of notes

Everyone can find notes also from other University

Will be implemented a system of evaluation of notes, in this way you can choose the best notes from other users, mashup your favorite notes.

Main features SEE WIKI

- Mashup of notes to guarantee the best quality of notes for everyone
- Efficient indexing of notes
- Automatic management of tags
